

Speaker's Equipment Needs: LCD projector and audio cord on an A/V table or cart, power supply available at the A/V cart or table, large projection screen, lapel microphone, 4-foot table for presenter materials at front of room, no podium.

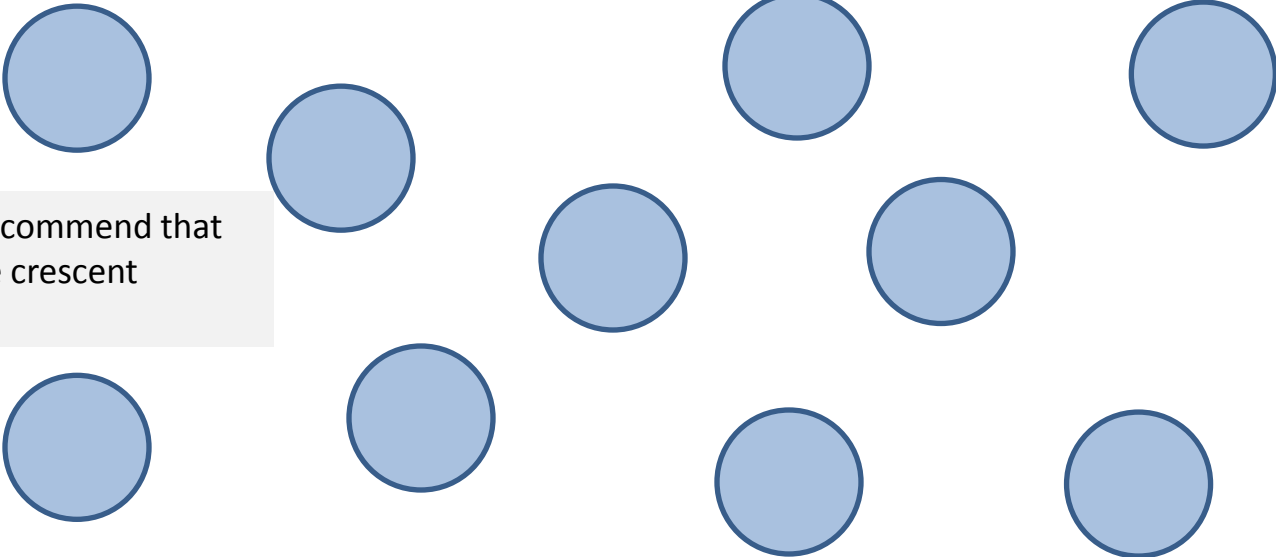

4 foot table for presenter materials

Please Note: Presenter requested that screen **not** be centered in front. It can be on either side.

Audience area (set up as needed for the event)

Note: Recommend that set-up be crescent rounds.

Note: If buffet or beverage station is set up inside the room, it would be good to put it on the same side as the screen, and have audience tables on other side for better viewing for the screen.
